

Upcoming Training Events

Dates: March 7-11, 2016

Location: 30 Central Industrial Dr.
Granite City, IL 62040
(618) 451-2907

Competent Rigger Level 2 \$795.00 per person

Qualified Inspector \$895.00 per person

Periodic Manual Hoist Inspection \$435.00 per person

St. Louis Learning Center

John Sakach Co. of St. Louis

Competent Rigger Level 2

March 7-8, 2016

8am-5pm

Sixteen hours of intense study covering intermediate to advanced rigging applications. This course prepares the rigger to safely perform Level 2 rigging activity. The rigger will be trained to calculate tensions based on sling angles of symmetric and non-symmetric loads, headroom limitations and load weights. The rigger will learn to select the safest and most efficient slings and hardware for the job. Crane communication skills and pre-use inspection techniques are also part of this valuable training.

Qualified Inspector - Level 3

March 9-10, 2016

8am-5pm

Sixteen hours of intense study covering periodic inspection criteria and techniques for slings and rigging hardware as described in ASME B30.9, B30.10, B30.20 and B30.26 standards. Approximately half of this course is hands-on inspection of gear which was actually damaged in the field. This program is designed to build the inspector's confidence in the inspection techniques and improve their decision making skills.

Periodic Manual Hoist Inspection

March 11, 2016 (Please pick AM or PM class) *8am-12pm *1pm-5pm

This half day course is an in depth study on periodic inspection criteria and techniques for both manual lever and hand chain operated chain hoists. The course follows standards as described in ASME B30.16, B30.21, OSHA, HMI and manufacturer requirements. Designed to build the inspector's confidence in inspection techniques and improve decision making skills, participants spend approximately half of the course in hands-on inspection and dismantling of lever and hand chain hoists as required.
